Respected Colleagues,

Greetings and warm regards!

MaxFacIndia is an organization - established at Pune, Maharashtra in 2017 - which is focused on the professional development of maxillofacial prosthodontics in India. This is being accomplished through the following means:

- **Patient Treatment Services** - for patients requiring maxillofacial prosthetic care.
- **Silicone Laboratory Services** - for clinicians requiring auxiliary support.
- **Partnership with Technovent Ltd., UK** - to make medical-grade silicone materials available.
- **Training Provider** - to provide hands-on training in maxillofacial prosthetics.

ABOUT THE PROGRAM

The discipline of Maxillofacial Prosthodontics is dedicated towards the rehabilitation of patients suffering from acquired or congenital defects of the oral and maxillofacial region. A large majority of intra-oral defects result from surgical resections of either the maxilla (maxillectomy) or mandible (mandibulectomy).

Nasal regurgitation of liquids, difficulty in mastication, altered speech patterns, mandibular deviation, and facial asymmetry - are challenging aspects faced by these patients. Majority of these patients report to dental colleges & hospitals and require intervention by a trained Prosthodontist to improve their function, appearance and thereby quality of life.

This 3-days hands-on training workshop will focus on the technical aspects involved in fabrication of Obturators (Surgical, Interim & Definitive) and Guidance Prostheses (Palatal Ramp & Guide Flange).

We look forward to your participation in the workshop.

..... Regards,

The Organizing Team

PROGRAM ITINERARY

DAY 1

08.30-09.15 am	Breakfast & Inauguration
09.15-10.45 am	Discussion - Scope of MFP - Prosthetic Considerations in Maxillectomy & Mandibulectomy
11.00-01.00 pm	Interim Obturator (A): Record Base Designs
01.00-01.45 pm	Definitive Obturator (B): Base Flasking
02.30-03.00 pm	Definitive Obturator (B): Counter Flasking 1
03.00-04.00 pm	Interim Obturator (B): Teeth Arr.
04.30-06.00 pm	Palatal Ramp Prosthesis (C): Ramp Development in Wax

DAY 2

09.00-10.30 am	Definitive Obturator (B): Wax Base & Counter Flasking 2
10.30-11.30 am	Palatal Ramp Prosthesis (C): Wax to Resin Conversion
11.45- 01.15 pm	Definitive Obturator (B): Denture Base Packing
02.00-03.30 pm	Interim Obturator (A): Wax to Resin Conversion
03.30-04.30 pm	Definitive Obturator (B): Lid Fab.
04.45-06.00 pm	Prostheses Finishing

DAY 3

09.00-10.15 am	Definitive Obturator (B): Teeth Segment Packing
10.30-12.30 pm	Guide Flange Prosthesis (D): Flange Development in Resin
12.30-01.45 pm	Impression Making
02.30-04.00 pm	Prostheses Finishing
04.15-05.30 pm	Cast Partial Framework Designs
05.30-06.00 pm	Valedictory
