**Respected Colleagues,**

Greetings and warm regards!

**MaxFacIndia** is an organization - established at Pune, Maharashtra in 2017 - which is focused on the professional development of maxillofacial prosthodontics in India. This is being accomplished through the following means:

- **Patient Treatment Services** - for patients requiring maxillofacial prosthetic care.
- **Silicone Laboratory Services** - for clinicians requiring auxiliary support.
- **Partnership with Technovent Ltd., UK** - to make medical-grade silicone materials available.
- **Training Provider** - to provide hands-on training in maxillofacial prosthetics.

**ABOUT THE PROGRAM**

Anaplastology or Maxillofacial Prosthetics is a branch of medicine dealing with the prosthetic rehabilitation of an absent, disfigured or malformed anatomically critical location of the face or body. Developing required clinical and laboratory skills in this field is a challenging task for the interested clinician. Some of the fundamental and important skills to be learnt are impression making, sculpting, mold making, and handling of medical-grade silicone.

A medical-grade silicone kit typically contains a platinum silicone system, intrinsic colorants, flocking, extrinsic colorants & sealant, and skin adhesives for the patient. It is our endeavor at MaxFacIndia to guide the interested learner on the above aspects with emphasis on a simplified technique.

We look forward to your participation in the workshop.

..... Regards,

**The Organizing Team**

This hands-on workshop will focus on development of important skills in the field of maxillofacial prosthetics. Our training methodology is quite comprehensive with demonstrations given on each step by the faculty. This is followed by practical hands-on activity by the participants on patient simulator models. Our faculty team works together to ensure quality in training. An optimal faculty-to-participant ratio, adequate time given for completion of each step, and sufficient material & instruments provided by the organizers - all serve towards enhancing the learning experience.
